CANNABIS INDABA

24 April 2023

The global Cannabis market was estimated to be valued at US\$24 billion in 2022 and is expected to grow to about US\$82.3 billion by 2027. In 2021, the South African Cannabis industry had an estimated business value of R87.7 million and is expected to grow exponentially during this decade.

The Research Directorate at CPUT has facilitated the establishment of a Transdisciplinary Team to conduct research on how underprivileged communities within the Western Cape can join the "Cannabis Rush" and be part of the billion-dollar Cannabis Value Chain in order to transform their socio-economic status. The CPUT's Transdisciplinary Research Project Team on Cannabis therefore cordially invites you, as a "Cannabis Stakeholder", to the inaugural **Cannabis Indaba** and the details of the event are as follows:
